A lesson on listening to customers

"The problem wasn't that we stopped listening to customers. We believed we knew better what customers needed long term than they did."

- Former RIM insider

"We want a faster browser...."

"We want a more responsive touchscreen...."

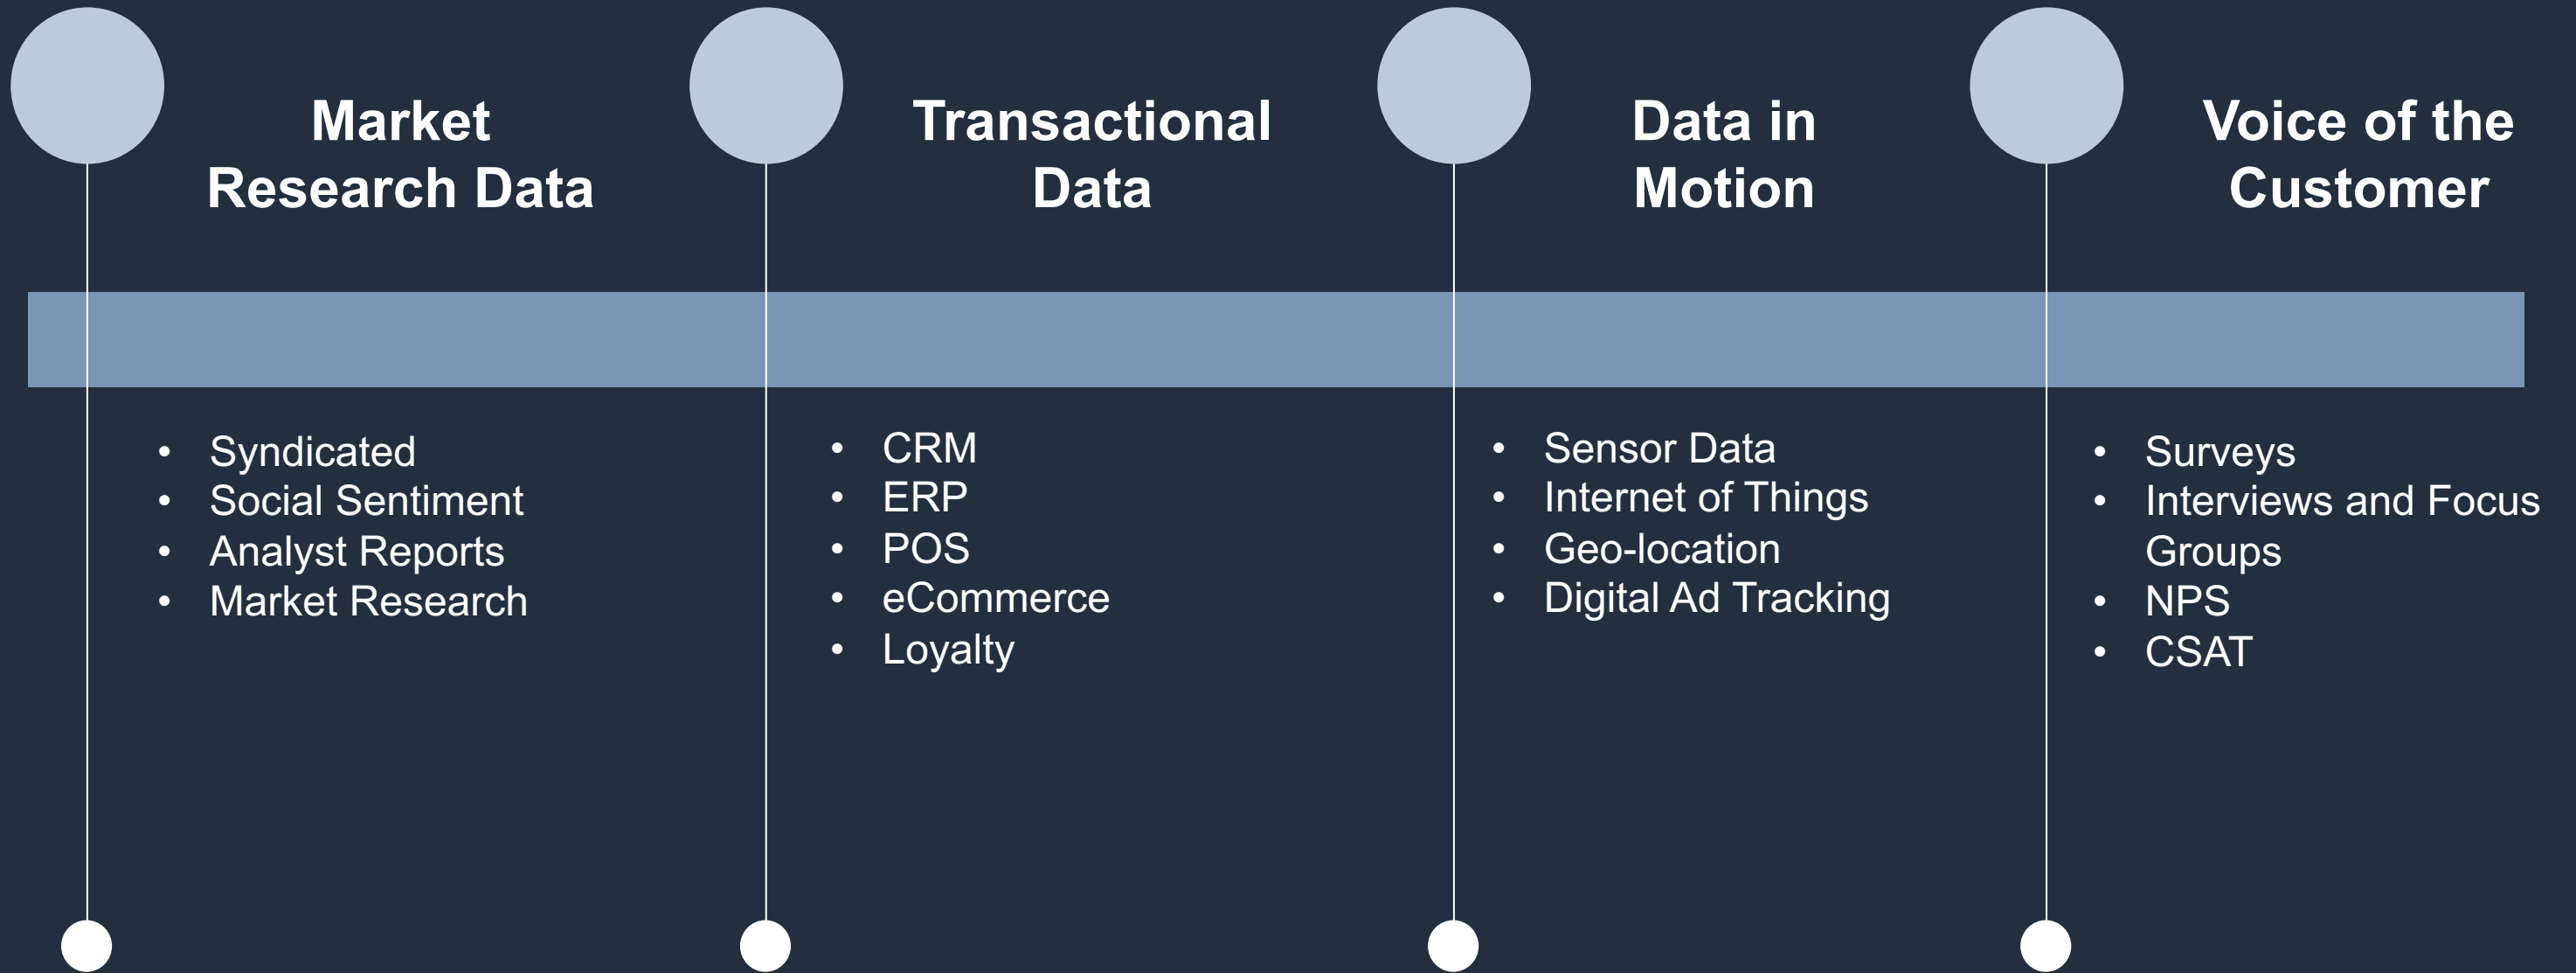

"We want more diverse applications....."

How do organizations listen to customers?

Everyone's Using the Same Data to Make Decisions

2020 Market Data Illustration

Survey Data May Not Capture the Holistic Customer Experience

Consumers are increasingly experiencing “**survey fatigue**,” with research showing declining response rates for each subsequent survey that a customer receives.”

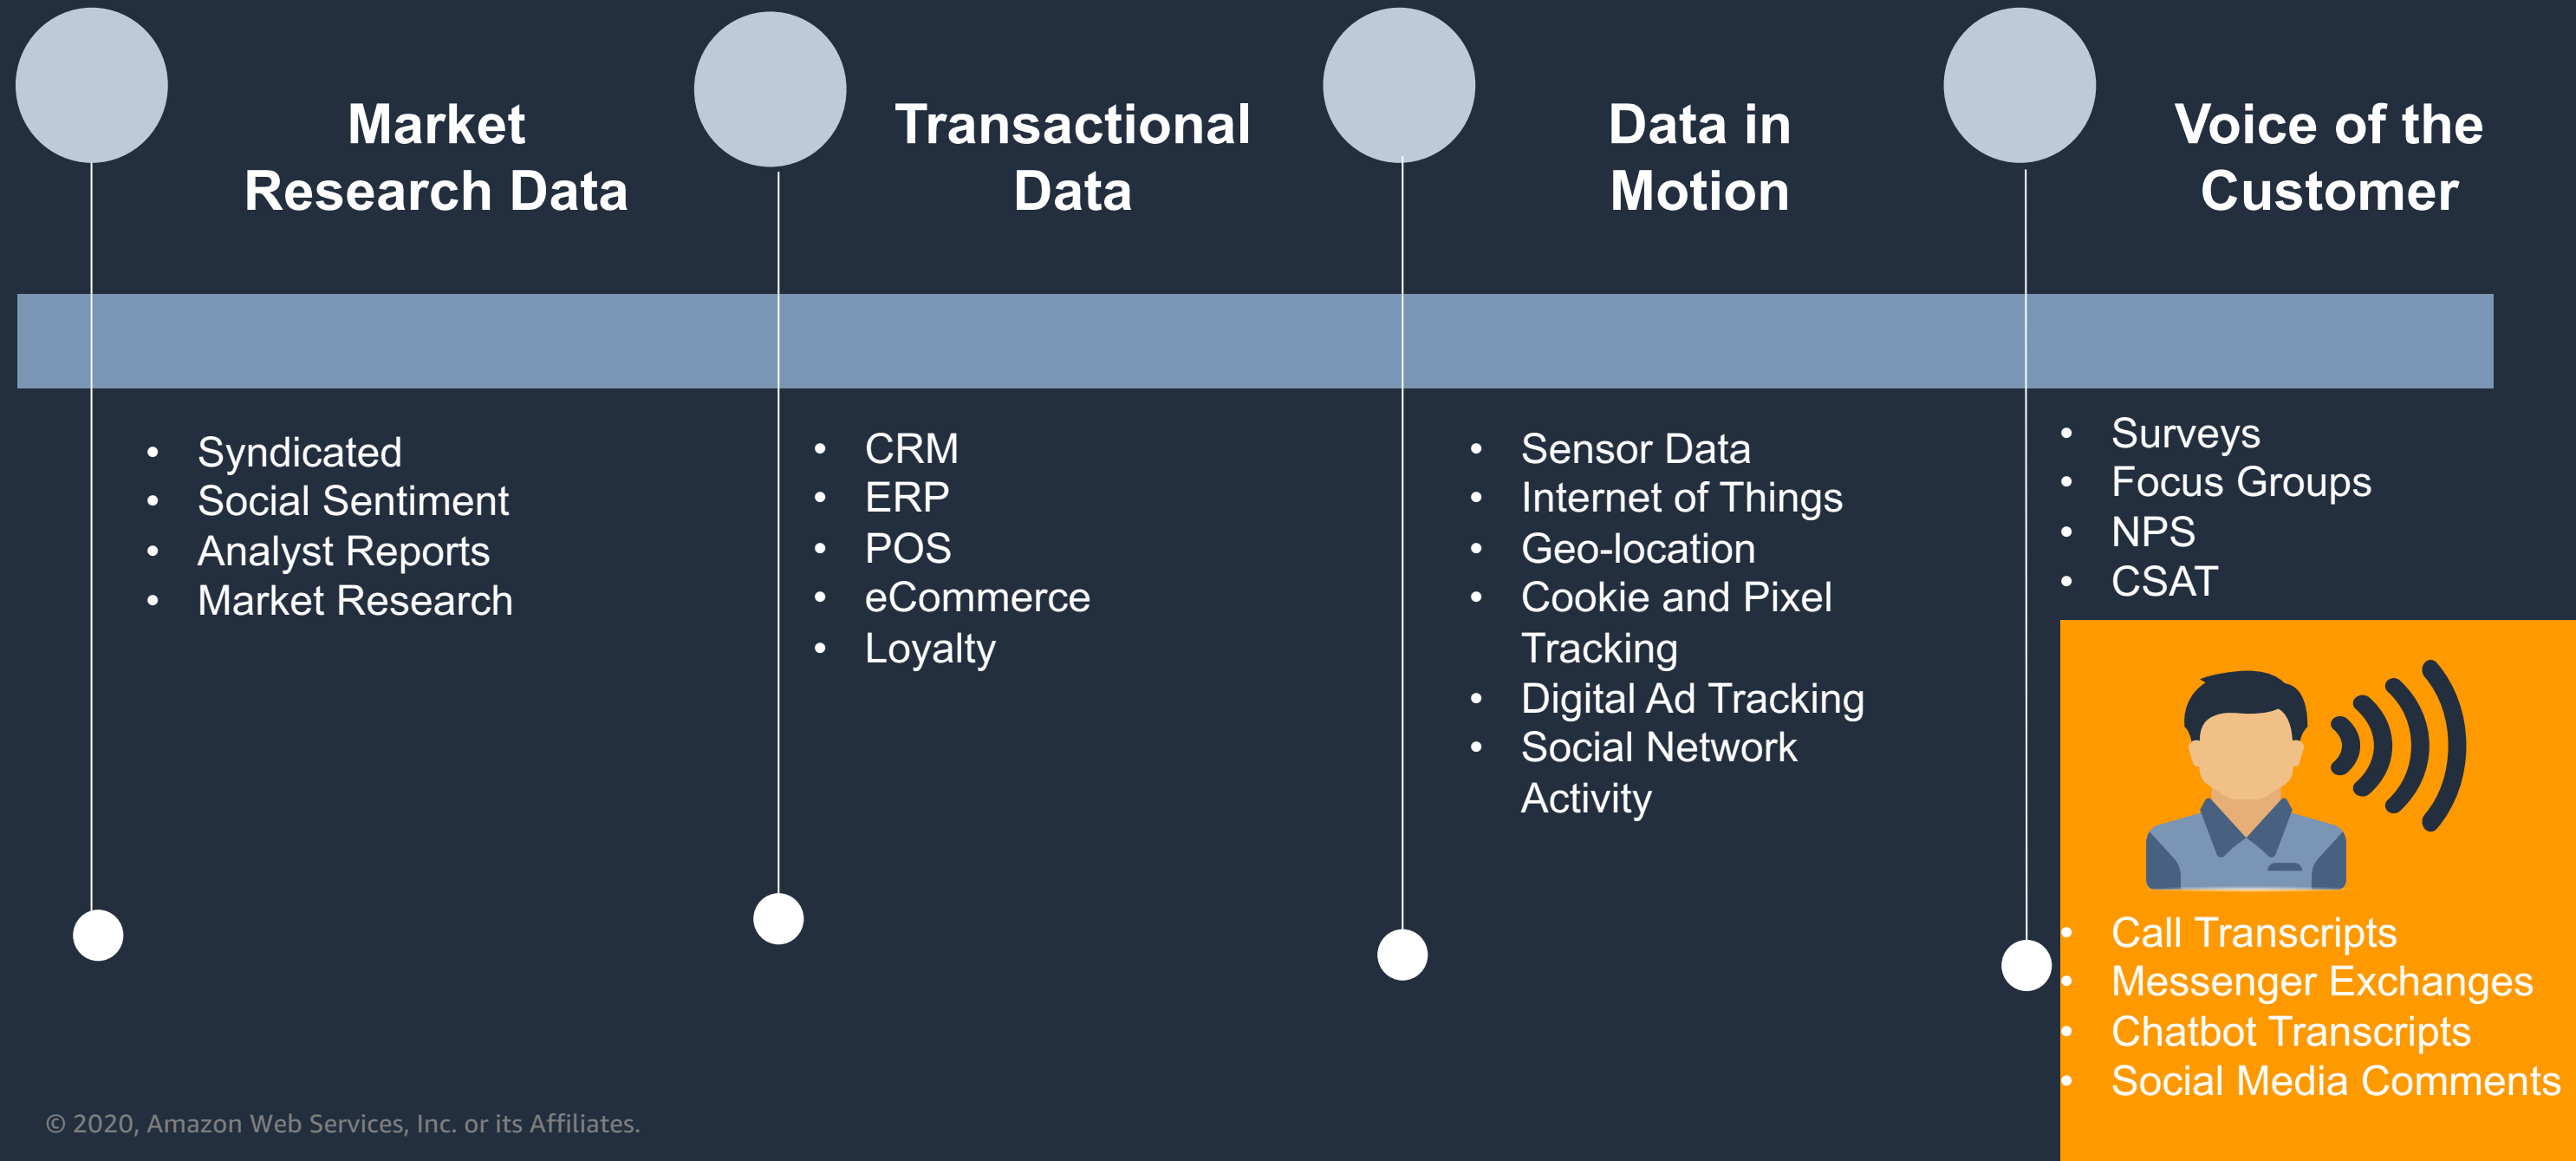

Gartner, 2020

“ Growing Companies Are More Actively Collecting CX Data Than Nongrowth Companies”

Customer Experience is Often Measured in Silos

Unlocking Customer Conversations

What makes Customer Conversations Unique

Cannot be displayed in rows, columns and relational databases

Images, audio, video, word processing files, emails, spreadsheets

Estimated to be 93% of of enterprise data by end of 2020 (Gartner)

More difficult to manage and protect with legacy solutions

Processing

A lambda function is triggered, processing each audio file in real time.

Transcribe

Deep learning automatic speech recognition (ASR) to convert speech to text quickly and accurately

Comprehend

Natural language processing (NLP) service that uses machine learning to find insights and relationships in text.

Output

Kinesis

Provides a simple way to capture, transform, and load streaming data. Capture and load data in near real time.

Redshift

Bring together structured data from your data warehouse and semi-structured data such as application logs from your S3 data lake to get real-time operational insights on your applications and systems.

Elasticsearch

Fully managed service that makes it easy to deploy, operate, and scale Elasticsearch for real-time analytics, full text search, and application monitoring.

Consumption

Kibana

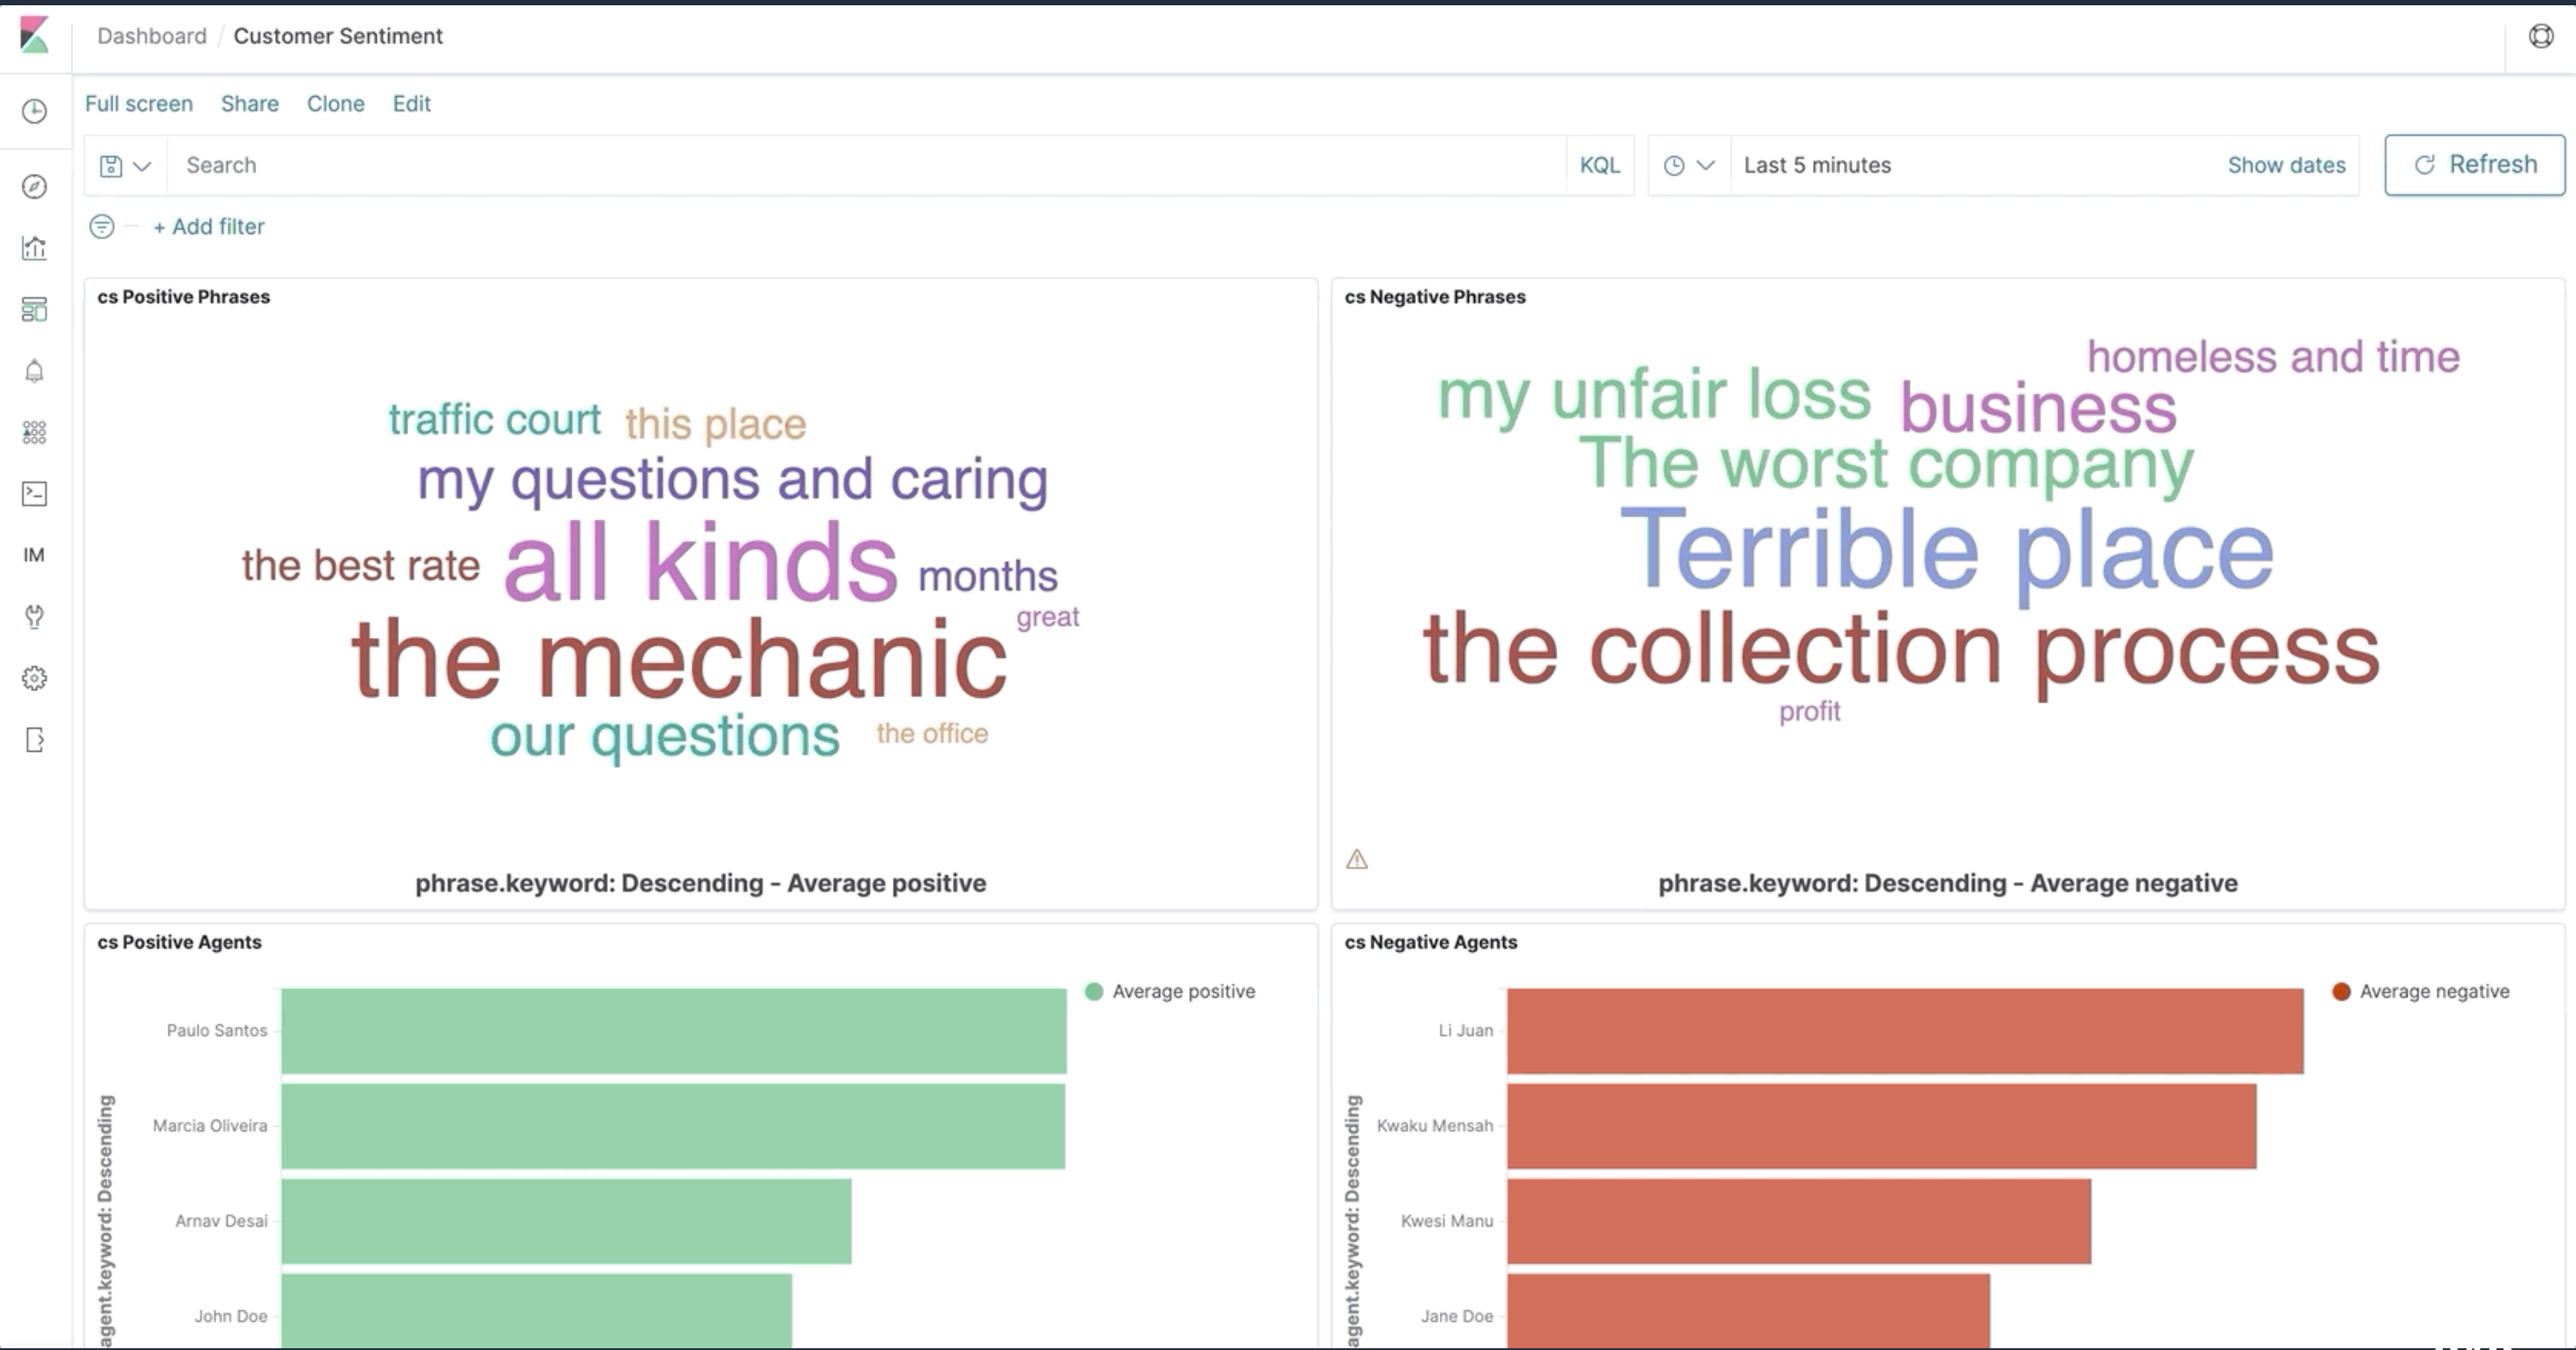

Data visualization
dashboard for Elasticsearch.

QuickSight

Create and publish interactive
dashboards that include ML
Insights.
